HOW DOES RSPO PALMTRACE SUPPORT THE TRANSITION TO SUSTAINABLE PALM OIL?
RSPO PalmTrace
and the transition to sustainable palm oil

Paula den Hartog
UTZ

12 June 2017, London
UTZ provides RSPO PalmTrace

• UTZ is a programme and a label for
  • Coffee
  • Cocoa
  • Tea
  • Hazelnut

• UTZ has a robust traceability system
UTZ supports RSPO in its mission

Transforming the market to make sustainable palm oil the norm
What is RSPO PalmTrace?
PalmTrace is RSPO’s traceability system

• RSPO’s traceability system to support RSPO certification

• Follows RSPO business rules

• Control point of compliance with RSPO criteria

• Links sustainable practices to products

• Follows certified volumes throughout the supply chain

• Allows collecting RSPO’s volume based fee
Supply chain actors in RSPO PalmTrace
RSPO Supply Chain Models

Identity Preserved
Sustainable palm oil kept separate and is traceable to the certified mill and its supply base

Segregated
Mixing of various sustainable palm oil batches is allowed, traceable to the various mills it originated from

Mass Balance
Mixing of sustainable and conventional palm oil is allowed and monitored administratively

Book and Claim
RSPO Credits sold by certified mills directly to product manufacturers and or retailers

Assurance
Physical traceability
Administrative traceability
Flexibility
Segregated Supply Chain Model

RSPO CERTIFIED
*physically separated

IT REPORTING SYSTEM

Palm oil can be traced back to several certified supply bases

MILL & SUPPLY BASE

CONVENTIONAL PALM OIL

NO THIRD PARTY CERTIFICATION

TRANSPORTER

NO THIRD PARTY CERTIFICATION

REFINER

NO THIRD PARTY CERTIFICATION

END USER

THIRD PARTY CERTIFICATION
RSPO credits

RSPO Certified
- Independent Smallholders
  - IS-CSPO Credits
  - IS-CSPKO Credits
  - RS-CSPKE Credits

RSPO Certified
- Mill
  - Palm Kernels
    - CSPKO Credits
    - CSPKE Credits
- Crusher

Off Market Deals

RSPO Trading Platform

Manufacturers or Retailers
Why RSPO Credits?

- To have **impact** on the ground

- Support growers who have changed practices to meet **RSPO standard** to produce certified sustainable oil palm products

- Support **independent smallholders** as they are likely to be excluded from a certified supply chain

- To cover the **palm based ingredients** that are not yet available as MB/SG
Traceability in PalmTrace
Conventional Mills in Palmtrace = unique!
Palmtrace: All In One Place

• Identity Preserved
• Segregated
• Mass Balance
• Credit trade

• Certified mills in supply base
• Non-certified mills in supply base
Why traceability?
What’s in it for you?
Why do we need traceability?

• Why does RSPO need traceability?

• Why does anyone need traceability?
Traceability for certification

- Assurance
- Credibility
- Trust
- Transparency
Traceability to mills

• Know the mills in the supply base, both certified and not

• Manage information on sources of conventional mills

• Engage with the mills in your supply base
Traceability and the transformation
Traceability as step to sustainability

• Traceability is a tool to support sustainability via certification

• Traceability is a step on the road to sustainability

• Knowing where oil palm products come from, allows for engagement to make the changes on the ground

• And start the transformation...
THANK YOU

Come meet us in the RSPO Booth!!!

For questions on RSPO PalmTrace, please contact our support team via palmoil.support@utz.org or +31 (0)20 820 8968.
