PANEL DEBATE: PARTNERSHIPS FOR ZERO DEFORESTATION

Partnerships for Zero Deforestation

by Dr Simon Lord

13 June 2017

Developing
Sustainable Futures

Examples of Partnerships On No Deforestation

NEW YORK DECLARATION ON FORESTS

Palm Oil Innovation Group

The importance of no deforestation has spurred the emergence of several programmes to tackle the issue

Tackling Deforestation Is Not A Black And White Scenario

Social Development Will Be Required To Achieve Conservation Goals

THE HCS APPROACH: AN INNOVATIVE GLOBAL METHODOLOGY FOR IMPLEMENTING ZERO DEFORESTATION COMMITMENTS

Grant Rosoman

Co-Chair, HCS Approach Steering Group

@Highcarbonstock

A unified global methodology – HCS Approach Toolkit v2.0

Ongoing Collaboration - HCSA Steering Group, [8 SPOM Companies Will Apply To Join]

Focus Remains..... Identifying Which Areas Are Forest

Methodology Implementation In 3 Phases

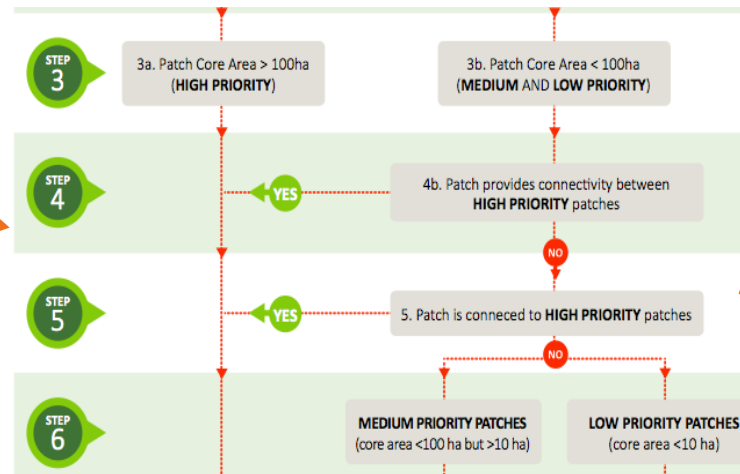

Phase 1

Vegetation stratification to identify potential HCS forest areas

Phase 2

HCS forest patch analysis and conservation planning

Phase 3

Achieving forest conservation with stakeholders

- HCS Approach: a practical, unified (convergence), & integrative land use planning tool to implement No Deforestation in the humid tropics
- Millions of ha rainforest prevented from conversion, over 6 Asia Pacific & African countries, cross-commodity (Palm, P&P, rubber, etc), and over 300,000 ha in process of being protected
- Innovative multi-SH private sector initiative – support RSPO implement Zero Deforestation, collaboration with HCV Resource Network, and supports government commitments (GHG emissions reductions, SDGs)
- Forthcoming innovations for - smallholders, supply chain support for protection of HCV/HCS areas, large-scale indicative HCS forest mapping for risk and jurisdictional, broader social requirements and in high forest cover landscapes

PARTNERSHIPS FOR ZERO DEFORESTATION

Nienke Stam

Senior Program Manager, IDH Sustainable Trade Initiative
@NienkeStamIDH

Background on Liberia's Oil Palm Concessions

- Concession agreements 2008/2009 with RSPO member companies require 20% of land as outgrower scheme;
 - Investment in the outgrower scheme to be mobilised by Government of Liberia;
- Companies perform HCV and HCS assessments, and develop on 'degraded land and degraded forest' only;
 - Long term impact of development on forests and on community livelihood and food security remains a concern;

Partnership for Production – Protection – Inclusion

Community FPIC Based Decision
